StoneRiver Expands Financial Reporting Options for General Ledger Clients

Cedar Rapids, IA, December 1, 2009 – StoneRiver, a leading provider of technology and strategic solutions for the insurance industry, introduces a new Excel-based financial reporting tool for use with its accounting systems.

F9 Version 5 will soon be available for use with both PRO Financial and PTE Financial General Ledger (GL) solutions. F9 links the General Ledger to Microsoft® Excel, allowing financial professionals to generate custom reports and analysis within a familiar application. Leveraging the newest functionality of Microsoft Excel 2007, F9 Version 5 offers more powerful business intelligence analysis including visualization tools, key performance indicators, and a module for dashboards and Web-based reporting.

“F9 Version 5 provides the flexibility, technology, security, and ease of use our clients demand,” said Brent Parks, product manager for PRO Financial and PTE Financial systems. “Version 5 represents a tremendous advancement in F9, a tool that our PTE Financial clients have long appreciated. We’re pleased that we can now offer it to our PRO Financial clients through an expansion of our strategic partnership with Infor.”

F9 Version 5 for StoneRiver applications will be available in January, 2010.

StoneRiver has provided insurance-specific financial and regulatory solutions to the industry for more than 20 years, and is proud to serve more than 1,000 insurance companies. StoneRiver retains its industry leadership role through insurance and statutory accounting expertise, and the company’s outstanding commitment to client success.

F9 is an individual business unit of [Infor](#), one of the largest providers of business software in the world. Located in Vancouver, British Columbia, F9 provides comprehensive financial reporting and analytics software to help businesses maximize their accounting personnel and enhance their productivity.
