

F9 Product Release History

for Cyma IV 2/2/2022

	Type	Description	Versions
12/17/2021	Enhancement	UI changes to see easier information about License type and Expiration date	F9Licensing.dll (2.1.0.0)
1/31/2022	Issue	GL formula doesn't return the correct value if the first segment is a * and second segment is a list	Cyma5.dll (6.5.1.0)
9/20/2021	Enhancement	Addin support for regional settings: decimal and thousand symbol	F9Reporter.dll (6.5.1.0) /F9Viewer.dll (6.5.1.0)
8/25/2021 8/25/2021	New Release New Release	V6.5 New Cloud Server/Concurrent User Licensing V6.5 New Cloud Server/Concurrent User Licensing - Cyma	F9Licensing.dll (2.0.0.0) Cyma5.dll (6.5.0.0)
8/25/2021	New Release	Addin and Viewer are supporting only Excel 2013 and up (support discontinued for Excel 2007/2010)	F9V5.dll (5.5.6.0) /F9Viewer.dll (5.5.3.0)
8/25/2021	New Release	Addin and Viewer to supprort new Cloud Server/Concurent User Licensing	F9Reporter.dll (6.5.0.0) /F9Viewer.dll (6.5.0.0)
8/4/2021	Issue	UI glitch in Report Wizard, Edit Row Header when screen display scale is 150%	F9Reporter.dll (6.0.26.0)
8/4/2021	Issue	When Publishing multiple times between RW and Viewer, some hidden defined names were left in the workbook	F9Reporter.dll (6.0.26.0)
6/8/2021	Issue	"Remove/Keep Filter Sheet" option not working for single filter item	F9SHProc.exe (2.9.0.0)
11/26/2020	Compatibility	Compatibility testing with Cyma 20 release. Sample reports updated	Cyma5.dll (6.0.1.0/5.0.43.0)
4/26/2021 12/10/2020	Issue	New Digital Signature added to Add-in and Viewer files Fixed issue when Synchronisation error occurs for Offline activation, Activate window becomes available for re-activation	F9Reporter.dll (6.0.25.0) /F9Viewer.dll (6.0.9.0)/ F9v5.dll F9Licensing.dll (1.0.38.0)
11/30/2020	Issue	Issue fixed when publish from Email/Values back to F9	F9Reporter.dll (6.0.24.0) / F9v5.dll (5.5.4.12)
10/22/2020	Issue	Running task when condition is set without sending email action	F9SchedulingHub.exe (2.10.3.0), F9SHProc.exe (2.8.0.0)
10/6/2020	Issue	Publish to Viewer/Values cell structures were lost when creating a new F9 cell formula	F9Reporter.dll (6.0.22.0) / F9v5.dll (5.5.3.12)
10/6/2020	Issue	Removed calls in Server to set desktop coords when browser based UI involved. BC topic added.	F9R.exe (6.0.36.0), F9VW.exe (6.0.36.0), F9.EXE (5.0.36.0)
8/27/2020	Issue	Fixed issue for The Financial Edge Topic, if Project list was too large, Task Panes did not show up	F9Reporter.dll (6.0.21.0)
7/7/2020	Issue	Check for updates support for TLS1.2	F9SchedulingHub.exe (2.10.2.0)
7/7/2020	Enhancement	Update links for release notes	F9SchedulingHub.exe (2.10.1.0)
6/24/2020 4/15/2020	Issue	Fixed issue with Publish to Viewer/Email with invalid Uri Fixed issue with Publish to Viewer/Email when temp file is locked	F9Reporter.dll (6.0.19.0) F9Reporter.dll (6.0.18.0) / F9v5.dll (5.5.1.12)
2/3/2020	New Release	V5.5 New Licensing - Cyma	Cyma5.dll (5.5.0.0)
3/3/2020	Issue	Fixed issue when resizing Task Pane controls	F9Reporter.dll (6.0.17.0)/F9Viewer.dll (6.0.8.0)
3/3/2020	Issue	Task Pane issue if company previously saved in the registry does not exist any more	F9Reporter.dll (6.0.17.0)/F9Viewer.dll (6.0.8.0)
3/3/2020	Issue	Added new UI for processing capability response for offline Synchronization without generating the capability request	F9Licensing.dll (1.0.37.0)
3/3/2020	Enhancement	Support License per device	F9Licensing.dll (1.0.37.0)
2/19/2020	Enhancement	Remove / Keep Filter Worksheet	F9SchedulingHub.exe (2.10.0.0), F9SHProc.exe (2.7.0.0)
1/17/2020	Issue	Ribbon Utilities group buttons are disabled in some scenarios	F9Reporter.dll (6.0.16.0)
1/9/2020	Enhancement	Support for Both V6 and the upgrade for V5 (V5.5)	F9Licensing.dll (1.0.36.0)
1/8/2020	Issue	Fixed the issue with broken trusted storage	F9Licensing.dll (1.0.36.0) F9Reporter.dll (6.0.15.0)/F9v5.dll (5.4.32.X)
9/11/2019	Issue	Delete registry/ini when reseting Task Panes Fixed issue where a "Feature Not Found" message could appear after the trial period expired.	F9Keporter.dii (6.0.15.0)/F9V5.dii (5.4.32.X) F9Licensing.dli (1.0.35.0)
9/5/2019	Issue	F9 Lists Task Pane, Drag and Drop list was not working if items with empty descriptions	F9Reporter.dll (6.0.14.0)
9/5/2019	Enhancement	F9 Ribbon has a Utilities button added that has Sum menu for Budget Writeback, Chart, FE Maintenance and Lists	F9Reporter.dli (6.0.14.0)
7/25/2019	Improvement	All F9v5 32bit installs include Office.dll to resolve issue on some client's machines not beeing able to attach F9 if Excel is rus as regular user	F9V5.dll (5.4.30.0)/F9Viewer.dll (5.4.24.0)
		All F9v5 32bit installs include Office dll to resolve issue on some client's machines not beeing able to attach F9 if Excel is rus as regular user Fixed issue Analyze would return error when pasting results to the sheet.	F9V5.dll (5.4.30.0)/F9Viewer.dll (5.4.24.0) F9Reporter.dll (6.0.13.0)/F9V5.dll (5.4.30.0)
7/25/2019 7/25/2019 7/25/2019	Improvement		
7/25/2019 7/25/2019 7/25/2019 7/1/2019	Improvement Issue Issue New Release	Fixed issue Analyze would return error when pasting results to the sheet. Fixed issue in Analalyze Task pane when switching company in dropdown F9 V6 for Cyma	F9Reporter.dll (6.0.13.0)/F9v5.dll (5.4.30.0) F9Reporter.dll (6.0.13.0) Cyma5.dll (6.0.0.0)
7/25/2019 7/25/2019 7/25/2019 7/1/2019 6/21/2019	Improvement Issue Issue New Release Enhancement	Fixed issue Analyze would return error when pasting results to the sheet. Fixed issue in Analalyze Task pane when switching company in dropdown F9 V6 for Cyma Default system path for initial setup changed to C:\CYMA\CYMA4	F9Reporter.dll (6.0.13.0)/F9v5.dll (5.4.30.0) F9Reporter.dll (6.0.13.0) Cyma5.dll (6.0.0.0) Cyma5.dll (6.0.1.0/5.0.43.0)
7/25/2019 7/25/2019 7/25/2019 7/1/2019 6/21/2019 7/25/2019	Improvement Issue Issue New Release Enhancement Update	Fixed issue Analyze would return error when pasting results to the sheet. Fixed issue in Analalyze Task pane when switching company in dropdown F9 V6 for Cyma Default system path for initial setup changed to C\CYMA\CYMA4 Support for F9 Version 6 and upcoming version side-grade for V5.5	F9Reporter.dll (6.0.13.0)/F9v5.dll (5.4.30.0) F9Reporter.dll (6.0.13.0) Cyma5.dll (6.0.0.0) Cyma5.dll (6.0.10/5.0.43.0) F9Licensing.dll (1.0.34.0)
7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/1/2019 6/21/2019 7/25/2019 7/11/2019	Improvement Issue Issue New Release Enhancement Update Issue	Fixed issue Analyze would return error when pasting results to the sheet. Fixed issue in Analalyze Task pane when switching company in dropdown F9 V6 for Cyma Default system path for initial setup changed to C\CYMA\CYMA4 Support for F9 Version 6 and upcoming version side-grade for V5.5 Fixed issue when one report is open and user opens same report via View/New Window from Ribbon, second window is frozen.	F9Reporter.dll (6.0.13.0)/F9V5.dll (5.4.30.0) F9Reporter.dll (6.0.13.0) Cyma5.dll (6.0.0.0) Cyma5.dll (6.0.10/5.0.43.0) F9Licensing.dll (1.0.34.0) F9Reporter.dll (6.0.12.0)/F9Viewer.dll (6.0.7.0)
7/25/2019 7/25/2019 7/25/2019 7/1/2019 6/21/2019 7/25/2019	Improvement Issue Issue New Release Enhancement Update	Fixed issue Analyze would return error when pasting results to the sheet. Fixed issue in Analalyze Task pane when switching company in dropdown F9 V6 for Cyma Default system path for initial setup changed to C\CYMA\CYMA4 Support for F9 Version 6 and upcoming version side-grade for V5.5	F9Reporter.dll (6.0.13.0)/F9v5.dll (5.4.30.0) F9Reporter.dll (6.0.13.0) Cyma5.dll (6.0.0.0) Cyma5.dll (6.0.10/5.0.43.0) F9Licensing.dll (1.0.34.0)
7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/1/2019 6/21/2019 7/25/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019	Improvement Issue Issue New Release Enhancement Update Issue Enhancement	Fixed issue Analyze would return error when pasting results to the sheet. Fixed issue in Analalyze Task pane when switching company in dropdown F9 V6 for Cyma Default system path for initial setup changed to C:\CYMA\CYMA4 Support for F9 Version 6 and upcoming version sided for V5.5 Fixed issue when one report is open and user opens same report via View/New Window from Ribbon, second window is frozen. MigrateF9Reports() function exposed so it can be called from VBA Macro	F9Reporter.dll (6.0.13.0)/F9v5.dll (5.4.30.0) F9Reporter.dll (6.0.13.0) Cyma5.dll (6.0.0.0) Cyma5.dll (6.0.1.0/5.0.43.0) F9Licensing.dll (1.0.34.0) F9Reporter.dll (6.0.12.0)/F9Viewer.dll (6.0.7.0) F9Reporter.dll (6.0.12.0)/F9Viewer.dll (6.0.7.0)
7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/V2019 6/21/2019 7/15/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019	Improvement Issue Issue New Release Enhancement Update Issue Enhancement Enhancement	Fixed issue Analyze would return error when pasting results to the sheet. Fixed issue in Analalyze Task pane when switching company in dropdown F9 V6 for Cyma Default system path for initial setup changed to C\CYMA\CYMA4 Support for F9 Version 6 and upcoming version side-grade for V5.5 Fixed issue when one report is open and user opens same report via View/New Window from Ribbon, second window is frozen. MigrateF9Reports() function exposed so it can be called from VBA Macro Report Wizard now supports list of empty Budgets Report Wizard will not allow user to proceed if they don't select at least one GL parameter for rows and columns (Steps 2 and 3) Support for new F9 V6 products (FE)	F9Reporter.dll (6.0.13.0)/F9v5.dll (5.4.30.0) F9Reporter.dll (6.0.13.0) Cyma5.dll (6.0.0.0) Cyma5.dll (6.0.10/5.0.43.0) F9Leicensing.dll (1.0.34.0) F9Reporter.dll (6.0.12.0)/F9Viewer.dll (6.0.7.0)
7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/1/2019 6/21/2019 7/15/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019	Improvement Issue Issue New Release Enhancement Update Issue Enhancement Enhancement Enhancement Enhancement Issue Issue Issue	Fixed issue Analyze would return error when pasting results to the sheet. Fixed issue in Analalyze Task pane when switching company in dropdown P9 V6 for Cyma Default system path for initial setup changed to C:\CYMA\CYMA4 Support for F9 Version 6 and upcoming version side-grade for V5.5 Fixed issue when one report is open and user opens same report via View/New Window from Ribbon, second window is frozen. MigrateF9Reports f) function exposed so it can be called from VBA Macro Report Wizard now supports list of empty Budgets Report Wizard will not allow user to proceed if they don't select at least one GL parameter for rows and columns (Steps 2 and 3) Support for new F9 V6 products (FE) Fixed loading of topic DLLs on French operating systems.	F9Reporter.dll (6.0.13.0)/F9v5.dll (5.4.30.0) F9Reporter.dll (6.0.13.0) Cyma5.dll (6.0.0.0) Cyma5.dll (6.0.0.0) F9Licensing.dll (1.0.34.0) F9Reporter.dll (6.0.12.0)/F9Viewer.dll (6.0.7.0)
7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/10/2019 6/13/2019	Improvement Issue Issue Issue New Release Enhancement Update Issue Enhancement Enhancement Enhancement Essue Issue Issue	Fixed issue Analyze would return error when pasting results to the sheet. Fixed issue in Analalyze Task pane when switching company in dropdown F9 V6 for Cyma Default system path for initial setup changed to C:\CYMA\CYMA4 Support for F9 Version 6 and upcoming version side-grade for V5.5 Fixed issue when one report is open and user opens same report via View/New Window from Ribbon, second window is frozen. MigrateF9Reports() function exposed so it can be called from VBA Macro Report Wizard now supports list of empty Budgets Report Wizard will not allow user to proceed if they don't select at least one GL parameter for rows and columns (Steps 2 and 3) Support for new F9 V6 products (FE) Fixed loading of topic DLLs on French operating systems. F9 Ribbon, Update button stoped working after security was changed on f9.com. Changed to support TLS 1.2 protocol	F9Reporter.dll (6.0.13.0)/F9v5.dll (5.4.30.0) F9Reporter.dll (6.0.13.0) Cyma5.dll (6.0.0.0) Cyma5.dll (6.0.10/5.0.43.0) F9Licensing.dll (10.34.0) F9Reporter.dll (6.0.12.0)/F9Viewer.dll (6.0.7.0)
7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/12/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/10/2019 6/13/2019 6/13/2019	Improvement Issue Issue Issue New Release Enhancement Update Issue Enhancement Enhancement Enhancement Essue Issue Issue Issue	Fixed issue Analyze would return error when pasting results to the sheet. Fixed issue in Analalyze Task pane when switching company in dropdown F9 V6 for Cyma Default system path for initial setup changed to C\CYMA\CYMA4 Support for F9 Version 6 and upcoming version side-grade for V5.5 Fixed issue when one report is open and user opens same report via View/New Window from Ribbon, second window is frozen. MigrateF9Reports() function exposed so it can be called from VBA Macro Report Wizard now supports list of empty Budgets Report Wizard will not allow user to proceed if they don't select at least one GL parameter for rows and columns (Steps 2 and 3) Support for new F9 V6 products (FE) Fixed loading of topic DLLs on French operating systems. F9 Ribbon, Update button stoped working after security was changed on f9.com. Changed to support TLS 1.2 protocol GLTRAN Task Pane was reversing sign if GL Task pane had "NGL formula" option set	F9Reporter.dll (6.0.13.0)/F9v5.dll (5.4.30.0) F9Reporter.dll (6.0.13.0) Cyma5.dll (6.0.0.0) Cyma5.dll (6.0.10/5.0.43.0) F9Licensing.dll (1.0.34.0) F9Reporter.dll (6.0.12.0)/F9Viewer.dll (6.0.7.0) F9Reporter.dll (6.0.17.0)/F9Viewer.dll (6.0.5.0) F9Reporter.dll (6.0.11.0)/F9Viewer.dll (6.0.6.0)
7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/25/2019 7/1/2019 6/21/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 7/11/2019 6/13/2019 6/13/2019 6/13/2019	Improvement Issue Issue New Release Enhancement Update Issue Enhancement Enhancement Enhancement Issue Issue Issue Issue Issue Issue	Fixed issue Analyze would return error when pasting results to the sheet. Fixed issue in Analalyze Task pane when switching company in dropdown F9 V6 for Cyma Default system path for initial setup changed to C\CYMA\CYMA4 Support for F9 Version 6 and upcoming version side-grade for V5.5 Fixed issue when one report is open and user opens same report via View/New Window from Ribbon, second window is frozen. MigrateF9ReportsQ function exposed so it can be called from VBA Macro Report Wizard now supports list of empty Budgets Report Wizard now supports list of empty Budgets Report Wizard will not allow user to proceed if they don't select at least one GL parameter for rows and columns (Steps 2 and 3) Support for new F9 V6 products (FE) Fixed loading of topic DLLs on French operating systems. F9 Ribbon, Update button stoped working after security was changed on f9.com. Changed to support TLS 1.2 protocol GLTRAN Task Pane was reversing sign if GL Task pane had "NGL formula" option set Report Wizard was not creating outlines if description of Sub Total or Total did not contain word "total"	F9Reporter.dll (6.0.13.0)/F9v5.dll (5.4.30.0) F9Reporter.dll (6.0.13.0) Cyma5.dll (6.0.0.0) Cyma5.dll (6.0.10.76.0.43.0) F9Licensing.dll (1.0.34.0) F9Reporter.dll (6.0.12.0)/F9Viewer.dll (6.0.7.0) F9Reporter.dll (6.0.10.0)/F9Viewer.dll (6.0.6.0) F9Reporter.dll (6.0.11.0)/F9Viewer.dll (6.0.6.0) F9Reporter.dll (6.0.11.0)/F9Viewer.dll (6.0.6.0)

6/1/2017	Issue	F9 Task Panes UI supports scaling for different resolutions.	F9V5.dll (5.4.19.0) and F9Viewer.dll (5.4.14.0)
6/1/2017	Issue	Change Data source for Report Controls - enable F9 Topic migration from Sage Mas 90 and F9 Proffesional to the new product F9 for Sage 100	F9V5.dll (5.4.19.0)
4/24/2017	Issue	F9 table returns "No Data Found" for Budget Types containing blanks. Fixed.	F9V5.dll (5.4.18.0)
4/24/2017	Issue	Migrate to BSPECR not working when Sheet name contains blank. Fixed.	F9V5.dll (5.4.18.0)
4/21/2017	Issue	Publish F9 to Viewer/Email and Publish Viewer/Emai to F9 with encrypted with password workbook. Fixed.	F9V5.dll (5.4.18.0)
3/2/2017	Issue	Migrate a BSPEC to BSPECR function failed. Fixed.	F9V5.dll (5.4.17.0) and F9Viewer.dll (5.4.13.0)
1/23/2017	Issue	Removed code in F9 Viewer that was changing global Excel Comment settings to hide Comments and Indicators.	F9Viewer.dll (5.4.12.0)
1/23/2017			
1/23/2017	Enhancement Enhancement	Addin Options Dialog added ability to turn Diagnostic file on/off and choose Diagnostic location AppData/F9V5. Change Data Source for Report Controls improved with lists of Systems. Companies and Status showing if they can be refreshed.	F9V5.dll (5.4.16.0) and F9Viewer.dll (5.4.12.0)
		Change Data Source for Report Controls improved with lists of Systems, Companies and Status showing if they can be refreshed. Refresh Papart Controls processes improved with lists of Data Sources that Controls point to and current EQ Satus so user can determine why Papart.	F9V5.dll (5.4.16.0) and F9Viewer.dll (5.4.12.0) F9V5.dll (5.4.16.0) and F9Viewer.dll (5.4.12.0)
1/23/2017	Enhancement	Refresh Report Controls messages improved with lists of Data Sources that Controls point to and current F9 Setup, so user can determine why Report	rava.uii (5.4.16.0) and raviewer.dli (5.4.12.0)
12/15/2016	Issue	Controls can not be refreshed, or if they were refreshed from specific Data Source F9 Viewer and V5 Addin got errors if Account segment values were empty. Now in that case they add asterix (*).	F9V5.dll (5.4.15.0) and F9Viewer.dll (5.4.11.0)
10/20/2016	Update	Added F9 Viewer support for external links that are part of Excel formula for publishing with Enabled Parameters option. External links are still not	F9V5.dll (5.4.14.0), F9Viewer.dll (5.4.10.0)
10/20/2016	Issue	Converting F9 reports to Viewer and Email didn't work if extension of the file was in capital letters (i.e. XLSM)	F9V5.dll (5.4.14.0), F9Viewer.dll (5.4.10.0)
10/20/2016	Issue	Refresh Report Controls was not updating controls pointing to the same path with uppercase.	F9V5.dll (5.4.14.0), F9Viewer.dll (5.4.10.0)
10/20/2016	Issue	Task panes failing when DDE Timeout was too low. Error handling improved, so Task Panes are not created if Timeout error occurs.	F9V5.dll (5.4.14.0), F9Viewer.dll (5.4.10.0)
9/12/2016	Issue	In the case of V14 data, open year transactions were not being reported. Fixed.	Cyma5.dll (5.0.39.0)
8/2/2016	Update	Additional info added in a case of DDE Error.	F9V5.dll (5.4.13.0), F9Viewer.dll (5.4.9.0)
		Internal lists handling improved for speed. Part 2.	Cyma5.dll (5.0.38.0)
8/19/2016 8/2/2016	Enhancement Issue		
8/2/2016	Issue	Report Wizard fails when selecting a Company with no existing data. F9 System has multiple commas with port number. Port number after second comma truncated.	F9V5.dll (5.4.13.0), F9Viewer.dll (5.4.9.0) F9V5.dll (5.4.13.0), F9Viewer.dll (5.4.9.0
7/18/2016	Enhancement	Internal lists handling improved for speed. Part 1.	Cyma5.dll (5.0.37.0)
5/27/2016	Issue	Scheduled tasks would fail to load Excel in scenarios where "ClickToRun" versions of Excel were involved. Fixed.	F9V5.dll (5.4.12.0)
5/11/2016	Update	Additional diagnostic reporting assembly version.	F9V5.dll (5.4.12.0), F9Viewer.dll (5.4.8.0)
5/9/2016	Issue	Regional Settings for negative numbers set to "()" instead of "-" would lead to an exception in task panes.	F9V5.dll (5.4.12.0), F9Viewer.dll (5.4.8.0)
4/29/2016	Update	Additional diagnostics in list functionality.	F9V5.dll (5.4.12.0), F9Viewer.dll (5.4.8.0)
4/4/2016	Enhancement	If formula has multiple Companies, Drill Balances outputs table for each Company on a new Sheet.	F9Viewer.dll (5.4.8.0)
		Natural segment name was not using company specific natural account segment and a year string to integer coversion fixed.	Cyma5.dll (5.0.36.0)
4/12/2016	Issue		
4/8/2016	Issue	Drill down to transactions for companies with 13 periods was using last year's period 12 end date for this year's start date instead of period 13's end	Cyma5.dll (5.0.35.0)
4/4/2016	Enhancement	New functions added F9R(range) and F9R_VW(range) that take in a range of cells as an argument and return comma separated list of cell values. This	F9V5.dll (5.4.12.0), F9Viewer.dll (5.4.8.0)
4/4/2016	Update	To assist better with support issues we can turn on registry key to "Diagnostic" = true. In addition, new key is added "DiagLocationAppData" = true which	
4/4/2016	Update	When starting with new install, F9V5 and F9Viewer task panes will be wider and Dropdown controls will be wider to support longer data/descriptions. A	
2/10/2016	Issue	F9 was showing activity for an retained earnings account that has no activity in CYMA. Was related to improper use of 12 vs 13 periods for prior period	
11/19/2015	Update	F9 Report Manager Info form pops up first if user clicks on F9 Scheduler.	F9V5.dll (5.4.10.0)
11/6/2015	Issue	Number format (thousands and decimal separator) are taken from Excel or Regional settings (issue with non-English Excel Transaction calculations would crash when using relative data file paths (instead of absolute) for later versions of CYMA data.	F9V5.dll (5.4.10.0), F9Viewer.dll (5.4.7.0) Cyma5.dll (5.0.33.0)
11/19/2015	Issue	ransaction calculations would crash when using relative data file paths (instead of absolute) for later versions of CYMA data. Copyright and address information changes. No functionality changes.	Cyma5.dli (5.0.33.0) Cyma5.dli (5.0.32.0)
11/6/2015	Update	Added feature to Migrate BSPEC formula to BSPECR for reports that are using ranges of cells as parameters. Menu item added in F9 Ribbon under	Cyrnas.dii (5.0.32.0) F9V5.dli (5.4.10.0)
11/6/2015	Issue	Email to F9 - unable to publish formula back to F9.	F9V5.dli (5.4.10.0)
11/6/2015	Issue	Publish to Viewer and Viewer to F9, support for BSPECR formula.	F9V5.dll (5.4.10.0)
11/1/2015	Enhancement	Compatible - Office 2016	F9V5.dll (5.4.10.0), F9Viewer.dll (5.4.7.0)
9/30/2015	Issue	Wrong F9 Info message when switching off/on "Show Segment Descriptions" in F9 Options dialog.	F9Viewer.dll (5.4.6.0)
9/30/2015	Enhancement	Microsoft .NET Framework 4.5 to improve performance of F9 and formulas. Speed increase varies depending on ERP, database, and number of	F9V5.dll (5.4.9.0), F9Viewer.dll (5.4.6.0)
9/30/2015	Issue	Period Report Control/DropDown added "YTD 1 Budget" to "YTD 12 Budget"	F9V5.dll (5.4.9.0), F9Viewer.dll (5.4.6.0)
9/30/2015	Issue	ActiveX Error if opening Task Pane after F9 Publish to Viewer/Email in excel 64bit.	F9V5.dll (5.4.9.0)
9/30/2015	Issue	Error in Publish to F9 if user was editing sheet, cells were losing Data Type.	F9V5.dll (5.4.9.0)
9/30/2015	Issue	If Excel cell is in the Edit mode do not allow user to Publish to Viewer/Email/F9	F9V5.dll (5.4.9.0)
9/30/2015	Issue	Viewer "Error in Formula" showing when calculate. Published formula had space at the beginning.	F9V5.dll (5.4.9.0)
9/24/2015	Enhancement	Added support for new transaction file (gl_trx3.dat) - Description enlarged from 30 to 80 characters	Cyma5.dll (5.0.31.0)
7/23/2015	Issue	Timeout error message was incorrectly returned for formulas generated by task panes. Error is now handled properly.	F9V5.dll (5.3.10.0)
6/24/2015	Enhancement	F9 Zero Suppress added support for grouped sheets.	F9V5.dll (5.3.9.0) and F9Viewer.dll (5.3.7.0)
6/12/2015	Issue	F9 Publish to Viewer/Email now automatically switches calculation mode to Manual.	F9V5.dll (5.3.9.0)
6/12/2015	Issue	F9 Publish to Viewer/Email saves file in temporary file first while processing, than saves in desired location. This is done in order to avoid locking files if	F9V5.dll (5.3.9.0)
6/8/2015	Issue	F9 Table, adding Data Bar now possible for Shared Workbooks.	F9V5.dll (5.3.8.0) and F9Viewer.dll (5.3.6.0)
6/8/2015	Issue	Addin Options dialog GPF id clicked before F9 Setup.	F9V5.dll (5.3.8.0)
6/8/2015	Issue	F9 outputs are allowed if worksheets are grouped. F9 Outputs are allowed if worksheets are grouped.	F9V5.dll (5.3.8.0)
6/8/2015	Issue	F9 Publish to Viewer support for formulas referencing Table cells. F9 Scheduler, Save Report to Location not holding manually typed input.	F9V5.dll (5.3.8.0) F9V5.dll (5.3.8.0)
6/8/2015	Issue	Publish to Email and Viewer added error handling for saving file to the new location.	F9V5.dll (5.3.8.0)
6/8/2015	Issue	Support for mapped drives in lower case.	F9V5.dli (5.3.8.0)
6/8/2015	Issue	Zero Suppress was not working if number was formatted as text.	F9V5.dli (5.3.8.0)
4/15/2015	Issue	Prevent Drill Table Balances Task Pane to open if formula in the cell returns F9 Error.	F9Viewer.dll (5.3.5.0)
4/15/2015	Issue	In some cases companies with similar names (Demo, Demo1, Demo2) were not distinguished in Task Panes	F9V5.dll (5.3.7.0) and F9Viewer.dll (5.3.5.0)
4/15/2015	Issue	F9 Table Task Pane was passing just first account if comma separated list of accounts was in the Whole Account text box.	F9V5.dll (5.3.7.0)
3/11/2015	Issue	Publish to Viewer and Publish to Email failed to save new file in root directory.	F9V5.dll (5.3.5.0)
	_		

2/18/2015	Enhancement	Publish to Email functionality changed to save F9 formulas using Open XML technology opposed to the old way of saving them in Comments which	F9V5.dll (5.3.4.0)
2/18/2015	Issue	Publish to Viewer did not work if Workbook has a Chart Sheet.	F9V5.dll (5.3.4.0)
2/10/2015	Issue	F9 Scheduler, Validation of User Credentials fixed if the server is using Context Options binding; Loading Tasks based on existing batch and PowerShell	F9V5.dll (5.3.3.0)
1/5/2015	Enhancement	Added logic for F9 Hosted in both V5 and Viewer to read Enabled users from catalog files.	F9V5.dll (5.3.3.0) and F9Viewer.dll (5.3.3.0)
1/5/2015	Issue	Reduce the number of F9 Error messages when opening Task Panes if the company saved from previous run does not exists any more.	F9V5.dll (5.3.3.0)
12/17/2014	Issue	Prevent F9 of calculating formulas if F9 User is Disabled.	F9V5.dll (5.3.2.0) and F9Viewer.dll (5.3.2.0)
12/17/2014	Issue	Support for changes in F9 Installs; new registry keys store how to lookup F9 settings (AppData or Registry)	F9V5.dll (5.3.2.0) and F9Viewer.dll (5.3.2.0)
12/17/2014	Issue	Support if #REF cell is referenced as a parameter in an F9 Formula to return an error.	F9V5.dll (5.3.2.0) and F9Viewer.dll (5.3.2.0)
